

Selection Criteria for Early-Mid Career Committee Members:

The criteria should align with the committee's mission and bring in engaged, effective members with diverse perspectives; thus, the following criteria will be considered.

- Career stage – Trainees to Associate Professor
- Expertise - Research, clinical experience, or both related to bipolar disorder.
- Diversity - Diverse representation in gender, race/ethnicity, location, institution type, and clinical vs. research focus.
- Interest and commitment - Expression of interest and ability to actively participate.
- Leadership potential - Members with promise as future leaders in the field.
- Mix of members - Balance of more junior and more senior members.
- Related experience (extra credit) - Prior involvement in relevant committees, organizations, conferences, etc.
- Initial plans/vision (extra credit) - Statements from applicants about goals and future initiatives for the committee.
